

Intraceuticals Oxygen Celebrity Facial Use of Colour Therapy in a Treatment

Presented by Katrina Valente

Tuesday: May 25th 2010 - 10am to 11.30am & 12pm to 1.30pm

Location: **Sharanis Wellness Spa** – Tel: 025562601 – info@sharanisspa.com

Katrina is famous for her celebrity endorsed facial that is used by Madonna, Jennifer Lopez and Charlize Theron. Pure oxygen is blasted into the skin through hyperbaric pressure to help the penetration of 2 serums. The first one acts like a “botox” effect only used on the lines of the face, then hyaluronic acid is used all over the face and neck, to hydrate, firm and revitalize the skin. The serums used are natural and very active.

- ✓ Results are truly amazing
- ✓ The skin positively glows

COLOUR THERAPY

We use colour everyday and choose colours according to how they make us feel. Four colours are chosen and there's an explanation of what each of them mean. Out of the 4, one will be chosen in her treatments.

Katrina specializes in RAINDROP BACK MASSAGE by using nine essential oils that are dropped on the spine one by one and each one is massaged in a different way into the back. This very special treatment realigns all the meridians and is deeply relaxing and healing with Katrina's special touch.. “This works as the emotional body as well as the physical”

- ✓ Do you want to see truly amazing results in this celebrity facial?
- ✓ Do you want to discover the use of colour therapy in a treatment?

If the answer is yes, then look forward to meeting therapeutic Katrina who will enlighten you on her Oxygen Facial and her holistic treatments.
